## AUTOMATION

Wieland Product Solutions

## SELOS & FASIS – DIN Rail Terminal Blocks

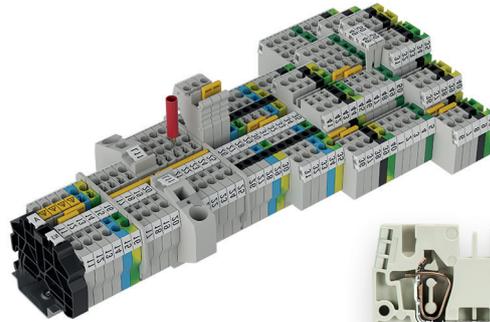

Wieland offer optimal solutions for Industrial applications in switchboards. The three product families share the same accessories which allows optimum flexibility and therefore reduces the cost of inventory. Wieland terminals are ideal for use in all areas of applications where a control panel is required. It is ideal for machine manufacturers, hazardous locations industrial automation and system integration.

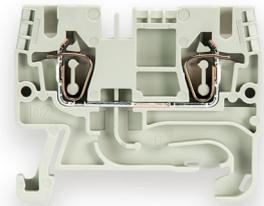

- Cross-sections up to 300mm<sup>2</sup>
- Current up to 520A
- Voltage up to 1000V

SELOS WT - Screw Connection

- Cross-sections up to 35mm<sup>2</sup>
- Current up to 125A
- Voltage up to 1000V

FASIS WKFN - Spring Connection

- Cross-sections up to 4mm<sup>2</sup>
- Current up to 32A
- Voltage up to 500V

**No tools required**

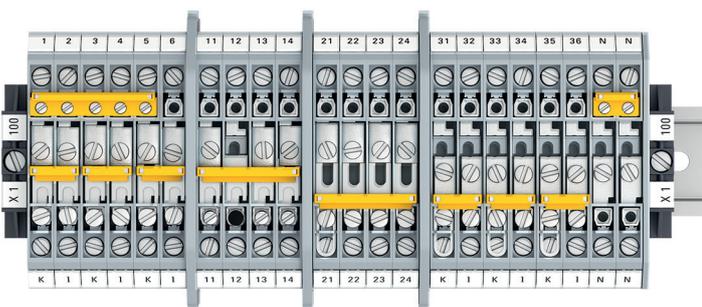

FASIS WTP – Push-In Connection

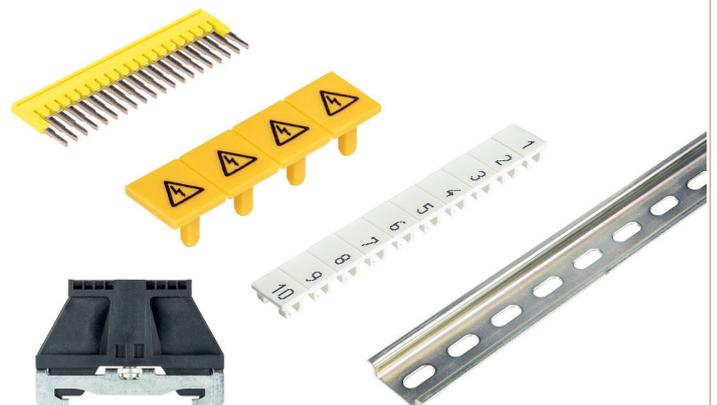

- Fully enclosed and high current touch proof
- Flexible Potential Distribution

SELOS WKN – WRT - RFK

SELOS CT Disconnect

SELOS & FASIS Accessories

## WT-Screw Connection

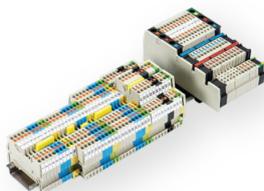

Product Description	Colour	2.5	4	6	10	16
WT Screw Terminal	Grey	58.503.0055.0	58.504.0055.0	58.506.0055.0	58.510.0055.0	58.516.0055.0

## REVOS MODULAR

Modular industrial connectors for Flexible for long term solutions.

- Screw, axial, spring and crimp connection
- Power, signal, communications
- Fully customizable
- Fast and easy installation times
- RJ46, ethernet, fibre optic

\*Fits with REVOS Basic Housings

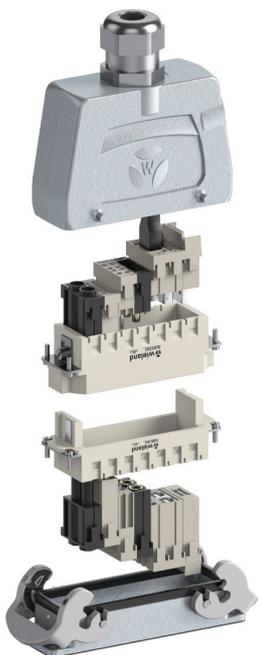

## REVOS POWER

Combination of power and controls contacts

- Screw and crimp connection
- Rated Voltage up to 690V

\*Fits with REVOS Basic Housings

## REVOS FLEX

Design for flexibility and modular structure

- Screw, spring and crimp connection
- Power, signal, data, pneumatic
- Extremely compact & robust
- Ideal for small machinery
- Fast installation
- Fully customisable

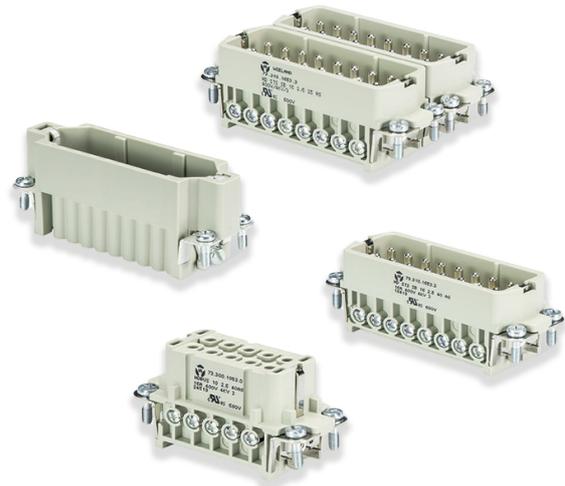

\*Fits with REVOS Basic Housings

## REVOS HD

### High Density Connection

- Screw and Crimp Connection
- 15 – 64 Pole
- Size 10/15, 16/25 Pole, 32/50 Pole
- Single and Double Locking Lever

# RST® – Connector System with High IP Protection

Wieland's RST are round connectors that offer maximum reliability with protection up to IP69 with pre-assembly and flexible extension at any time. Suitable for light technology, machine building and plant manufacturing

	RST® Classic	RST® Mini	RST® Micro
Connectors for power supply to the connector system			
Distribution blocks for distributing electrical energy of signals within the network			
Prefabricated Cables for transmission and supply			
Device connections are integrated directly			
Product family Number of poles Cross section	RST20 2 to 7 pole 0.5 ... 6.0 mm <sup>2</sup>	RST16 2 to 5 pole 0.25 ... 1.5mm <sup>2</sup>	RST08 2 to 5 pole 0.2 ... 0.75mm <sup>2</sup>

# Podis® - Energy Bus System for Industrial Automation

Wieland's **PODIS®** power bus is the innovative solution in decentralised power distribution. Suitable for conveyor technology, mechanical engineering, and wind energy systems.

Airport Logistics

Mechanical Engineering

Intra Logistics

# PODIS® EV

Decentralized power bus system for supplying EV charging stations.

Part Number	Description
00.729.0307.1	XPE 5G16; 6 AWG; 0,6/1k
Z6.563.6553.0	END PIECE PODIS 5G16
07.432.8100.0	MOUNTING CLIP for PODIS 5G6 / 5G16 2pcs req for 5G16
75.456.0053.1	CONNECTION MODULE FCS 16 5 SI SA M32
75.450.0214.3	Feed-in module for tray cable PODIS CON 5G16 connection by round cable; M50 cable gland
05.601.2519.0	MOUNTING CLIP VA2PODIS 5G16
05.601.2419.0	MOUNTING CLIP VA2 Flat & Round cable 5G16
F0.000.0051.9	CUTTING TOOL FOR PODIS FLAT CABLES UP TO 16MM
Z5.507.1653.1	M32 x 1.5 PA6 Nylon Gland for 18-25mm cable OD BLACK

## SAFETY SENSORS & CONTROLLERS

Sensors of the **Wieland** sensor PRO series ensure the effective protection of people in machine building and system engineering. The sensor PRO series includes contactless safety sensors, such as transponder switches, solenoid switches, light grids, light curtains, and rotary encoders as well as mechanical safety switches, such as emergency stop buttons, position switches, and guard controls.

## SAFETY - ALL IN ONE with SAMOS(r) PRO COMPACT

With the highest power in the smallest space, samos® PRO COMPACT sets new standards in the area of safe machine automation. Our all-rounder for all safety tasks, such as emergency stop, safety doors, light barriers, muting, presses, monitoring of speed, direction of rotation, and position, and so much more. Special libraries in the PLUS version offer outstanding added value for Motion, Presses, Muting, Analog and Combustion applications.

### Risk Assessment

- On-site examination of plant and equipment
- Risk Assessment Report
- The report will identify hazards, evaluate risk, and provide comprehensive risk control recommendations complying with AS4024.1-2019 and WHS Act & regulation.

### Safety Design

- Safety requirement specification
- Detailed design
- Component selection
- Customer Training
- Hardware (Safety Schematics)
- Software Development

### Validation

- Validation analysis complying with AS4024.1-2019
- Assessment of existing design against safety requirements
- Evaluate selected components
- Test of safety related hardware and software

### 1 Day Machinery Safety Standard Training – AS 4024.1- 2019 & WHS Act & Regulation

- WHS Act 2011 and WHS Regulation 2017
- Hazard identification and Risk Assessment to AS 4024.2019
- Risk minimisation/Risk control
- Hierarchy of Guarding and Controls
- New Guard interlock section AS 4024.1602 (EN ISO 14119)
- Introduction to ISO 13849-1 (AS 4024.1503-2014) and Sistema software.
- Wiring examples of safety relay with estop, safety guard switch, light curtain for category 2 to 4 and PL a to e.
- Introduction to programmable safety controller and configuration of safety project for category 2 to 4 and PL a to e.

### 3 Day CESE – Certified Electrical Safety Engineer (SGS-TUV Saar)

The course conveys the required legal and normative principles needed to properly evaluate the functional safety of a machine and to design and calculate safety functions. This is a cooperative course between Wieland and SGS-TUV Saar covering the safety-technical aspects of machinery and equipment with a focus on electro technology. Requirement: At least 2 years' professional experience in the areas development, construction and maintenance of functional safety systems

#### Content:

- EU directives, laws, and standards
- Risk assessment (EN ISO 12100)
- Functional safety (EN ISO 13849-1 and -2)
- Safety-related sensor, logic, and electrics
- Realising performance level PL
- Consideration and validation of safety-related entire systems

\*Please check available dates on [venusautomation.com.au](http://venusautomation.com.au) for all training events
